

## Ecrivus International ...connecting worlds

**PRESS RELEASE**  
**April 2008**

### **Ecrivus International – High quality translations in all languages!**

#### **Our profile**

Ecrivus International is a translation and interpreting agency for all languages. We can translate any document - including websites, manuals, e-mails, letters, books and magazines - into any language. How do we do this? Our team is made up of more than 10,000 professionals from all over the world, helping us deliver the best possible quality to you. They are all highly professional and skilled at what they do. Together we offer quality, experience, flexibility and excellent rates.

#### **Our power**

Ecrivus International is not just any translation agency. We work with only the very best translators and interpreters worldwide. Each translator and interpreter signs a contract, including a confidentiality agreement. This means you never have to worry about the privacy of your information. Our accessibility is another of our strong points. With Sales Agents in almost every country, we can lend our expertise to your projects wherever you are. You will be treated as a valued customer, not as a number. We devote our close attention to every project, whatever the size.

## Ecrivus International ...connecting worlds

### Our flexibility

We use all the language industry's major software, which allows us to provide comprehensive, all-round service. We can deliver your project in any format, including Microsoft Word, HTML, XML and PDF.

We hold licences for all major translation software (CAT) tools, so we can deliver high quality work, on time. CAT tools have many advantages that result in consistent translations, efficient turnaround times and, if you wish, we can even build up a customised glossary for consistent use of particular terms.

### Interpreting services

We offer interpreting services at short notice, wherever you are. All our interpreters have mastered both the source and target languages, meaning your message will be conveyed as accurately and as professionally as possible. Many people confuse translating with interpreting. Translation means translating a text from one language to another, including the idea of the original author. Interpretation is interpreting the spoken word from the source language, into the target language.

### Cost

We understand the desirability of a cost estimate beforehand. We offer two options for this.

You can go to our website, <http://www.ecrivus.com>, where you will find our QuickQuote® system, with which you can easily generate a free quote for a particular project. The amount is an estimate, so for a more precise cost indication you can use the 'Request a quote' button at the upper right-hand corner of the screen. We will send you a competitive offer for your project the very same day.

We look forward to hearing from you!

Mr Etienne Kerstgens, Chief Executive Officer and Owner, Ecrivus International

## Ecrivus International *...connecting worlds*

### Press information for Ecrivus International:

Ecrivus is a market leader in translation, interpreting, copywriting and localisation. We offer our services on a global scale to individuals and businesses. In order to deliver accurate translations to you, we ensure that **quality checks** are built in at every point in the translation process. With this in mind, you can be sure to receive the quality you deserve and expect. All our translators translate **into their mother tongue** and will only be engaged in a translation project if they have a **proven track record** in a particular specialisation.

With a database of over 10,000 translators, interpreters and professional business relationships worldwide, Ecrivus International is ideally organised to fulfill your translation and interpreting requirements in every language.
